The ask. Fund reserved seats in the Startup Ventura accelerator for founders from your jurisdiction, and receive a written outcomes report once a year. The model exists: in 2025 the City of Ventura approved $49,500 for Startup Ventura through its Economic Development department, the first public partner behind the program. Amounts and terms are set per agency.

WHAT IT IS

A 12-week accelerator run in official partnership with Plug and Play. It is Plug and Play's first formal accelerator program in Ventura County and the launch point for its expanded Southern California focus. Free to founders: no tuition, no fees, no equity. Inaugural cohort Spring 2027, plus a free workshop series and a Demo Day. Plug and Play operates 60+ locations across five continents and accelerates 2,500+ startups a year.

WHAT A PARTNERSHIP INCLUDES

- Reserved cohort seats for founders based in your city or district.
- A written outcomes report on the founders you funded, once a year.
- Recognition as a public partner on startupventura.com and in program materials.

WHAT YOU WILL BE ABLE TO MEASURE

Reported for every cohort, once a year, starting with the Spring 2027 cohort, to each public partner and on the Impact page:

- Founders served, by city of residence or company address.
- Companies launched or incorporated in Ventura County.
- Jobs at cohort companies, counted at graduation and at 12 months.
- Follow-on capital raised by cohort companies.
- Founders who remain in Ventura County after the program.

PUBLIC DOLLARS IN, AND WHAT THEY STAND ALONGSIDE

SOURCE	AMOUNT	STATUS
City of Ventura, Economic Development	$49,500	APPROVED, 2025

$42M

Series B led by Bessemer Venture Partners, 2023; a Y Combinator company

VENTURA VENTURES TECHNOLOGY CENTER · 2009 TO 2014

4

graduates still cited: The Trade Desk, MomentFeed, Connexity, GiddyUp

The need. Job growth in 2025 was 0.0 percent, and since 2007 every net new job has come from education and health care. The population peaked at about 850,000 in 2016 and stood at 828,500 in 2025; net domestic out-migration reached 5,027 in 2025, up 17 percent, and those leaving are mostly under 40 with household incomes of $50,000 to $150,000. In the second quarter of 2026, 19 percent of households could afford the median-priced home.
